

ABOVE ALL CONTRACTING GROUP

"In May, 2009 my insurance adjuster engaged Mr. Al Dyck of Above All Contracting Group Inc. to remediate and restore the baseboards and walls of my apartment following water damage.

Mr Dyck provided prompt and open communication through phone and email, which was a welcome change from my experience with other contractors. His industry professionals were consistently on time, careful with our belonging, and easy to communicate with.

The standard of the work completed under Mr. Dyck's supervision was exceedingly high. The installed baseboards were more attractive then the original, and the careful work actually fixed several problem spots another contractor had created in the installation of the hardwood floor, saving me the time and trouble of coordinating repairs to the hardwood. The drywall replacement, patching and painting was perfect, with a clear match to the existing paint and exacting trim work. We were specifically impressed by Mr. Dyck's professional employees, who cared more for quality work then speed.

I understand that Mr. Dyck is now operating "Above All Restoration", and I do not hesitate to recommend him and his professionals for any residential restoration work. I would certainly engage Above All Restoration for my own home."
