

ABOVE ALL CONTRACTING GROUP

"This is not just to recommend Al Dyck and his company to potential clients for their renovation needs; it is more of a way to convey my gratitude for a job well done. As a very systematic and detailed person who has completed many professional projects, I approached a process of gathering quotations, for a full bathroom renovation project, with a high level of due diligence. What has set Al Dyck apart from other professionals and highly competitive bids was a very friendly, transparent and helpful demeanor. Al was very punctual and generous with his time, ideas and suggestions. He guided me in the process of making choices and decisions, leading up to what my wife and I now refer to as a "bathroom that looks like a million bucks"; on a budget of course.

I gave Al my business based on the highest value for my budget, perceived quality and timely completion and I never regretted my decision. Throughout the project, Al's employees/subcontractors have exhibited the same high level of professionalism and have shown a great deal of respect and courtesy toward my family and my property. Everybody was very patient, helpful and accommodating. All requests for small changes and consultations were met with immediate attention and proper resolution. The project was completed in the quality and timely manner, leaving me fully confident to recommend Al's services to potential future clients. Al's personable, friendly and reassuring demeanor highly minimizes stress and life disruption that projects of this nature inevitably bring along.

Since the house renovation needs never seem to come to an end, Al Dyck and Above All Contracting Group will be given the first consideration for any future renovation projects on my property."
